TEAM LOTUS

1965

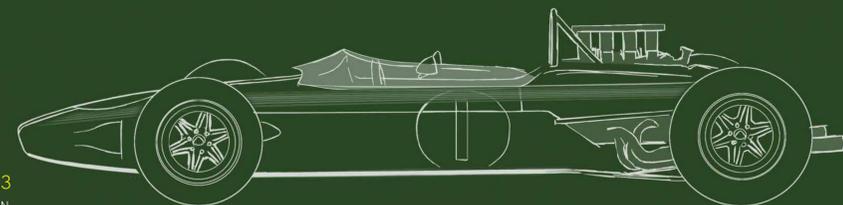

1965 was an exceptional year for both Jim Clark and Team Lotus during which they dominated multiple international motorsport categories.

Together they not only won the Formula 1 title and the Indianapolis 500 but they were also victorious in the Tasman series and secured both European and British Formula 2 championships. Clark and the marque also managed in their spare time to win races in the Lotus Cortina and the Type 30 Sports prototype.

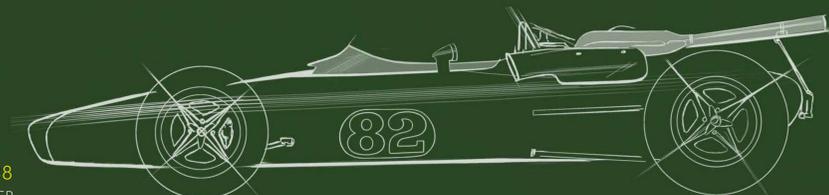

The Clark Edition Emira has been created to celebrate the 60th Anniversary of these outstanding and unique achievements.

This special limited Emira features an evocative livery and many unique details that pay homage to the legendary Scottish driver and the cars he drove.

The Indy Story

The iconic green and yellow Type 38 Lotus, driven to victory by Clark at an average speed of 150.6 mph, was the first mid-engine race car to win at Indianapolis and brought to a close the dominance of the traditional front-engine roadster .

The car designed by Colin Chapman and Len Terry featured an aluminium monocoque chassis, a naturally aspirated 500hp Ford DOHC V-8 engine and an offset suspension layout to suit the tracks left hand turns.

Chapman's designs dominated the leaderboard with Lotus finishing 1st, 2nd , 4th , 7th and 9th.

The following year Lotus and Clark returned but were controversially placed second after confusion relating to the lap scoring. The victory was handed to his friend and future teammate Graham Hill.

CLARK
CLARK
CLARK
E D I T I O N

Echoing the spirit of the racetrack, the logo design pays homage to the famed Clark nameplate. Featuring striking white with blue lettering boldly contrasted against a bespoke green exterior paint.

Forged from heritage and performance
A tribute to Jim Clark's legacy of speed, mastery, and motorsport glory
